Re: Internship posting for web developer

Troutwood, a fintech company operating out of the Carnegie Mellon University Swartz Center for Entrepreneurship is reviewing internship candidates for the position of web developer.

Responsibilities:

• Assist in implementing and maintaining a user-friendly web application
• Assist in maintaining/updating client websites
• Design and build new interactive web-based tools
• Debugging and troubleshooting functionality and web browser issues
• Build reusable code and libraries for future use

Qualifications:

• Portfolio of previous work required

Required Skills:

• Knowledge of the latest web technologies and trends
• HTML, CSS and JavaScript skills
• CSS frameworks (Bootstrap)
• Understanding of security and data protection
• Ability to test and debug cross-browser development

Preferred Skills:

• JavaScript frameworks
• Experience with version control (i.e. Git)

Interested candidates can submit questions and letters of interest by October 1, 2019 to:
gene.natali@troutwood.com

Respectfully,

Troutwood
