The Nebraska Hospital Association in collaboration with the Nebraska Pharmacists Association, Nebraska Association of Behavioral Health Organizations and Nebraska’s Federally Qualified Health Centers is sponsoring this We CARE We VOTE campaign.

This is a statewide initiative to empower and educate health care workers across the state of the importance of voting this November. And, in the wake of the current COVID-19 pandemic, we’re encouraging individuals to vote early (by mail) to ensure the health and safety of all Nebraskans.

Important Deadlines
